

LITERACY INSTRUCTION

| PARTNERS |

Librarians partner with teachers and students to exercise choice and curiosity in reading.

Students develop critical thinking skills, problem solving competencies and a love of reading through library material.

| READ |

Librarians provide free access to fiction and nonfiction titles for reading and research.

Students read for recreation, to expand their knowledge, and to develop empathy.

| RESEARCH |

Librarians teach how to find, evaluate, and curate relevant, accurate information.

Students conduct short and long research projects using reading materials and trusted sources that extend learning.

| SHARE |

Librarians model collaborative work strategies, incorporating diverse perspectives.

Students learn to interact and collaborate with others through literature.

| CREATE |

Librarians provide a welcoming and inspiring place to create and learn.

Students use available tools to demonstrate knowledge, share ideas or solve problems.

| GROW |

Students develop a love of reading and become lifelong learners with access to a strong school library program
