Students entering the 11th or 12th grade may opt to take the required Financial Literacy class online. Students must complete the course by the end of semester 1. It is the goal of the JSD to have students experience at least one online learning experience prior to graduating. There are multiple benefits to taking the Financial Literacy class online including, but not limited to: Students will complete a state required course for graduation; the online learning experience will help students prepare for college since the majority of students now entering college will experience online instruction/course work at sometime during their college experience; and by completing the Financial Literacy online, students will be able to take additional coursework or electives of high interest.

Enrollment for the course will start during the course registration process. The course will be available beginning mid-June and it must be completed by the end of semester 1. The online course will be graded as pass or fail (P/F) and will not be counted into the students GPA. Students will earn 2.5 credits for completing and passing the course. The transcript will designate course title with Option 2 designation, grade (P/F), and credit earned. This course is totally online. Parents and students prior to enrollment should consider the students learning style and whether an independent online course will lead to success.

Students must have this application signed by a parent/guardian and returned to the Guidance Office no later than June 14, 2023. Please see your Guidance Counselor with any questions.

I have read the above information regarding the Online Financial Literacy Course. I have reviewed the Program of Study for additional information regarding the Option 2/PLO model. I grant permission for my student to complete the online class.
