

MR. THEOBALD
Algebra 1/ Geometry/Trigonometry
stheobald@jacksonsd.org

RESPONSIBILITY: In my classroom it is your responsibility to:

- Follow ALL JMHS rules as outlined in the student handbook. (No cell phones, ipods, hoods, food, drink ect.)
- Be in class on time.
- Be prepared for each class.
- Create/ maintain a productive learning environment for all.

Tests/ Quizzes: There will be 4-6 major tests per semester. Usually two for each chapter we cover. Test will be worth 100 points each.

Class Participation: This involves being prepared for class each day and a willingness to be involved in each lesson.

Homework: Will be given out daily and checked daily. All assignments are to be done in your math notebook. There will also be designated “hand in” homework assignments. Homework will be scored from 10 to 20 points each. After 5 missed assignments **a call** goes out to your parent/ guardian.

GRADE (S): The average number of points earned each semester from the above 3 categories and the JMHS letter grade scale will determine all grades.

Note: This year each marking period is worth 28% & the final is worth 16% of your overall final grade.

Exemption from the final exam = 93+% in ALL 3 marking periods.

Responsibility: **Students should bring the following to class EVERYDAY!!**

- ✓ **Notebook** All notes should be kept in one notebook for math only.
- ✓ **3 ring binder** Each student should have a 1 to 2-inch binder for handouts, quizzes and home works returned.
- ✓ **Covered textbook** Must be covered and remain covered all year
- ✓ **Writing implement** Pencils or pen (Blue or Black only)
- ✓ **Scientific calculator** Ti30X, Ti34, Ti83, Ti84 (Ti83/84 is Recommended)
- ✓ **Positive attitude** **EVERYDAY!!!**

NOTES:

- All work should be completed neatly and on time.
- Homework is due at the start of each class.
- Late assignments may be accepted at a lower grade.
- If you miss one class you are responsible for the material covered and all assignments handed out.
- In the case where a student is absent for an extended period, the student will be given an adequate opportunity to make up the work.
- All material covered in class or covered in the course textbook is fair game on all quizzes and tests.

Geometry Theorem Notebook:

- Each student will complete a theorem notebook using a hardcover composition notebook.
- This notebook will be collected 3-4 times a year and graded as a quiz/test on its contents.
- Neatness counts!
