Using recycled materials to make SCULPTURE

Use cut paper towel tubes to create 3D art by cutting them into different sizes and glueing them together.

Use leftover aluminum foil to create a sculpture of anything you see. You can even have someone pose for you! Sculpt away!

Using found objects around the house, create a sculpture by glueing the pieces together to make anything you like. If you don't glue the pieces together, you can make lots of different sculptures using the same materials over and over.

Using recycled materials to make a DRAWING

Use an image cut out from a magazine to complete a whole picture.

1. Find any image from a magazine and glue it on to your blank paper.

2. Using pencil, marker or crayon to draw around your image with details and a background to create a complete picture.

Using recycled materials to make COLLAGE

Use cut paper from magazines or catalogs and add it to a self portrait to give yourself a fun hairstyle.

Use leftover newspaper, printed paper and brown bags to create a fun animal image- or anything else your imagination can come up with..

Using small cut magazine scraps of the same colors, create a MOSAIC image of anything you like. The possibilities are endless.

Using recycled materials to make a COLLABORATIVE ART

Here are some ideas using recycled materials, you can can try with your family.

Using materials like old magazines, printed paper, paper towel tubes and bottle caps, you can create and endless possibilities of artwork!
